2022 CLASS OFFICERS

Tyler Verrier
Class of 2022 President

Class of 2022, after four challenging and what seemed like endless years, our high school career is finally coming to an end. These past four years were everything but easy, and I am so proud of every one of you. Being that we spent three fourths of our high school careers with Covid restrictions, I am so thankful to have seen you all persevere and show off the true resilience we all share. I have been honored to be your class president throughout these four years and I am overwhelmed with excitement as we move into the beginning of our adult lives. I wish you all the best and I am confident that you all will achieve great things.

Marisa DeJesus
Class of 2022 Vice President

Class of 2022, congratulations on this incredible achievement! Over the past four years, we have learned together, laughed together, and cried together. We have celebrated each other's victories and supported one another through dark times. All of us should be proud of the resilience and perseverance we have demonstrated. Although we will depart high school to pursue our individual goals and personal passions, we will remain bonded by the knowledge, friendships, and experiences we gained as members of the Bay Path community. I wish each of you much success and happiness as you explore the future's endless possibilities.

Paige Osche
Class of 2022 Secretary

Class of 2022, these past four years have been absolutely insane. We've managed to live before, during, and after the Covid pandemic all throughout our high school years. Through it all, we have pulled through and managed to become stronger, well-rounded human beings who will go out and conquer the world. I have no doubt that every single one of us will go on to do great things, each with a bright future ahead. One thing that I want everyone to take with them are the friendships they've made here and the years of memories that go with them. Some of us came here with nobody and managed to find our people, and I can't stress enough how much these relationships mean to everyone. So, before we graduate, reach out to that person who befriended you the first day of school, say thank you to that one teacher who made your least favorite subject enjoyable, and just take a minute to appreciate all the people who helped you get to the place you are now. We are all an accumulation of the friends we make, words said to us, and memories we share with those around us. So, thank you class of 2022, for making high school a fun place to be and I hope to see you all in my Facebook friends list in 10 years' time.

Marlee Donohoe
Class of 2022 Treasurer

Class of 2022, congratulations on reaching it to the end of your high school journey. These past four years definitely did not go as planned, but I'm so proud of all of us for persevering and making it to graduation. One of my favorite things about this school is how unique all the people here are, and the vast array of interests, skill sets, and most importantly trades that form the foundation of Bay Path. Wherever your future plans may bring you, I wish you the best of luck and I hope nothing but the best for each and every one of you.

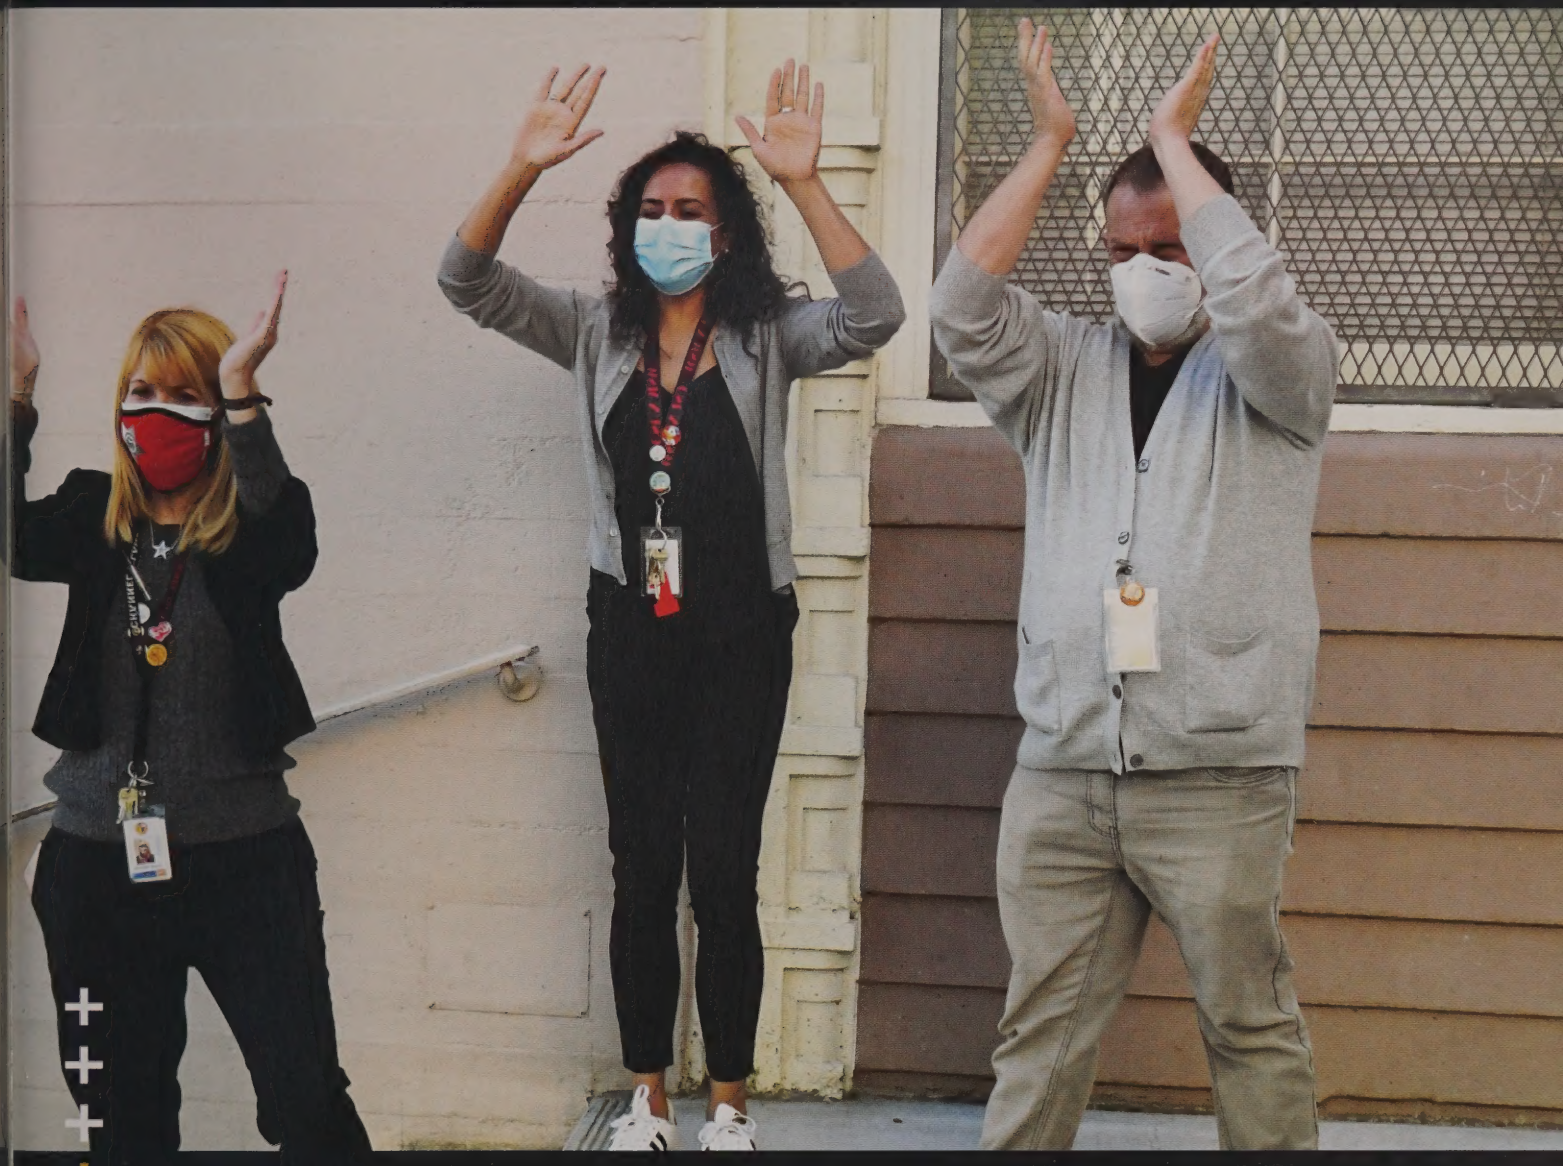
YEAR TWO++



As the COVID-19 pandemic continued into year two, it offered unexpected challenges. Businesses found ways to innovate and stay afloat. Schools, many of which lost students to homeschooling, developed creative solutions to keep students enrolled and engaged. And while approved vaccines brought the promise of a return to normal, virus variants Delta and Omicron challenged an already-stressed health care system. Even so, 99% of students remained in school full time at the end of 2021.

HEADLINES

MALARIA VACCINE SUCCESS

A century of research finally led to the creation of an effective malaria vaccine approved by the World Health Organization (WHO) in October. A study estimated that the GlaxoSmithKline vaccine, Mosquirix, could prevent 5.4 million cases and 23,000 deaths in children under five annually.

BROOD X RETURNS

Billions of Brood X cicadas, the largest group of 17-year periodical cicadas, emerged from their underground habitat after almost two decades, both delighting and annoying human observers. Periodical cicadas are famous for being a noisy member of the natural world.

HURRICANE IDA HAVOC

On the 16th anniversary of Hurricane Katrina, Ida hit the coast of Louisiana as a Category 4 hurricane with 150 mph winds. Ida knocked out power for 1 million in Louisiana and caused food, water and fuel shortages. The storm also hit the Northeast U.S., bringing tornados, flooding and record rainfall.

THE GREAT RESIGNATION

Workers quit their jobs in record numbers, a phenomenon that Texas A&M Associate Professor Anthony Klotz named "The Great Resignation." School disruptions, COVID-19 risks, and work-from-home arrangements left workers reexamining their priorities, often leaving jobs to make long-desired career changes, leaving employers struggling to run viable businesses.

SOCIAL MEDIA RISKS

Facebook, Instagram and TikTok were found to use algorithms that directed users toward unhealthy weight loss videos or filters that could negatively impact body image, leading to feelings of inadequacy or self-harming behaviors in some users.

INFLATION RATE

The end of 2021 saw demand outpacing supply, heating the U.S. economy to a 7% inflation rate, the highest in 40 years. Even though pandemic government aid and higher wages increased consumer demand, supply shortages led to rising prices for food, fuel, automobiles and other consumer goods.

NOBEL PEACE PRIZE

Two journalists, Filipino Maria Ressa and Russian Dmitry Muratov, won the 2021 Nobel Peace Prize for fighting to maintain freedom of expression while facing censorship, legal charges and threats of violence.

SURFSIDE COLLAPSE

Early on June 24, 2021, Champlain Towers South, a 40-year-old once elegant condominium building in Surfdside, Fla. partially collapsed, killing 98—one of the worst building failures in U.S. history. COVID-19

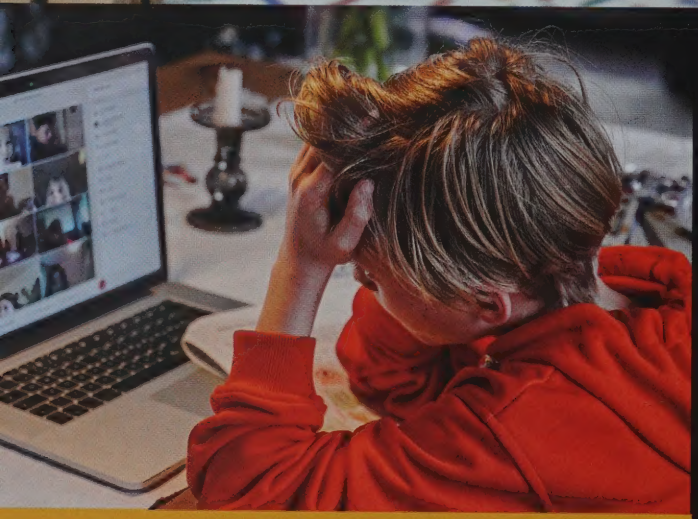
KIDS' VACCINES GREENLIGHTED

After authorizing emergency use of the Pfizer-BioNtech COVID-19 vaccine for those 16 and older, the FDA amended the order in May 2021 to include 12–17 year olds. In October, this approval was extended to 5–11 year olds. As of December 8, 2021, the CDC reported that 61% of 12–17 year olds and 18% of 5–11 year olds had received at least one dose.

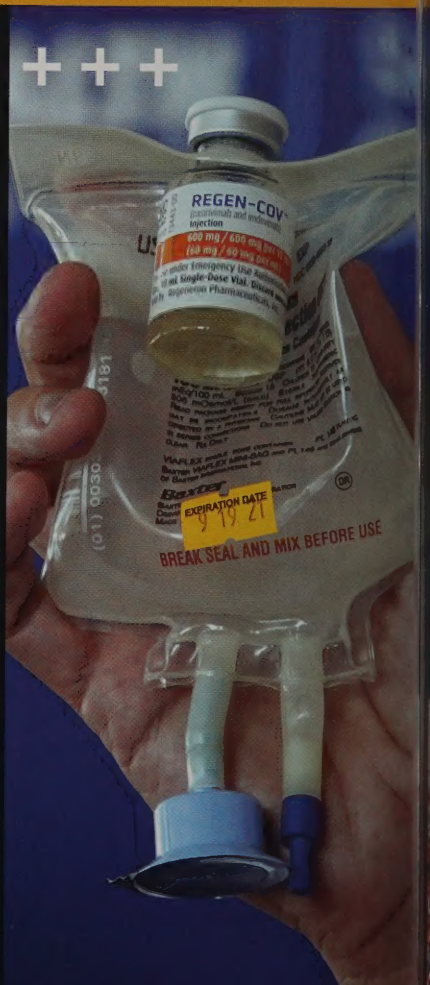


ZOOM FATIGUE

Virtual learning and work during COVID-19 contributed to Zoom fatigue. A Stanford University study concluded that virtual communication requires more mental work than in person. In Zoom, your brain may be working harder to compensate for lost nonvisual cues and body language.

PROMISING TREATMENTS

Several treatments emerged to help COVID-19 sufferers at increased risk of serious illness avoid hospitalization or reduce complications. In December 2021, the FDA authorized emergency use of Paxlovid, a prescription-only oral antiviral pill, as well as several monoclonal antibody treatments that work by interfering with virus replication.



mRNA VACCINE SCIENTIST

Decades of research led Hungarian American biochemist Katalin Karikó to the creation of messenger RNA (mRNA) vaccines, like those used against COVID-19. Karikó's research with immunologist Drew Weissman led to their success. Karikó continues to study and refine the BioNTech vaccine.

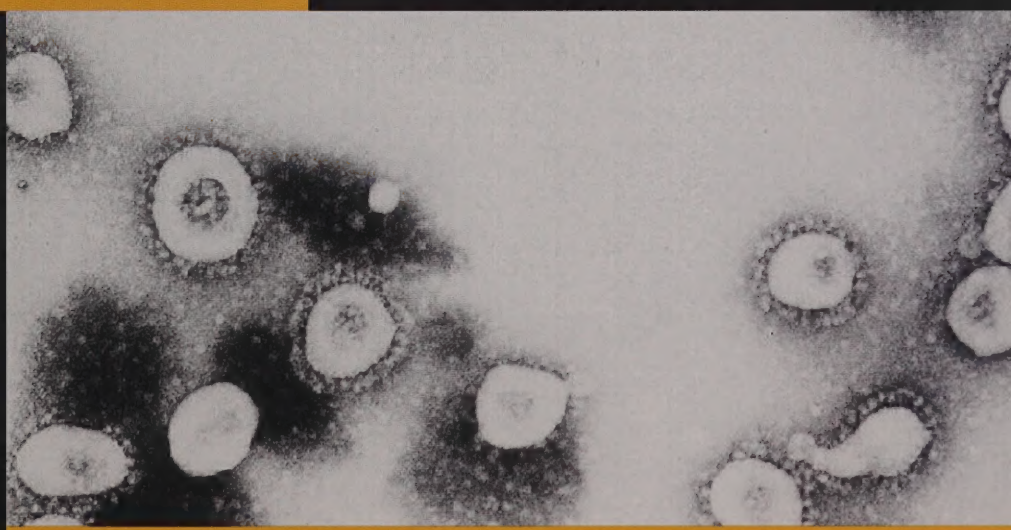
2. long COVID - condition with symptoms that continue after COVID-19 recovery
3. vaccine passport - digital or hard-copy proof of vaccination

WEAK SUPPLY CHAIN

Multiple factors, including COVID-19 quarantines, led to massive shipping delays. Shortages of goods like cars, computers, toys and bicycles were seen across the globe. Companies and governments scrambled to build production plants and calm frantic customers in advance of the winter holidays.



DELTA WAVE, OMICRON TSUNAMI

By the summer of 2021, things were starting to return to normal, then the Delta variant of COVID-19 arrived. By December, the newest variant, Omicron, a highly contagious form of the virus, replaced Delta's position as the most common type of COVID-19 infection being diagnosed.
